

## APS: Applying Professional Scrum

Course Code: APS

Duration: 2 days

Instructor-led Training (ILT) | Virtual Instructor-led Training (VILT)

### OVERVIEW

In this two day class, students learn to apply Professional Scrum. They experience new, agile ways of working that enable teams to deliver more value, satisfy stakeholders and work better together. Students work together as a team in a series of Sprints to solve complex problems, facing similar challenges that they face outside of class and learning how to use Scrum to address them.

These Sprints enable students to see the practical application of Scrum and to understand the value of an Agile mindset. Additionally, these Sprints expose common missteps and misunderstandings often seen while using Scrum, allowing students to develop an awareness of the associated symptoms and how to correct them. Students not only learn Scrum; they learn how to use Scrum well.

### SKILLS COVERED

- Learn about Agility and how Scrum differs from traditional plan-driven work models
- Develop an Agile mindset by focusing on professionalism, experimentation, and outcomes
- Learn (or relearn) the fundamentals of Scrum and how to apply them correctly
- Develop an understanding of what it is like to use Scrum and if it is right for your team
- Learn how to be a great Scrum Team member, or how to support a great Scrum Team

- Leave the class with ways to identify common pitfalls and how to avoid them
- Students use a set of proven practices throughout the class that can be used to enhance their application of Scrum
- Leave with tools that help Identify first steps in applying Professional Scrum with your team

### WHO SHOULD ATTEND?

The Applying Professional Scrum course is the perfect introduction, reboot or refresher to Scrum. It is excellent training for organizations, teams, and individuals wanting to experience the benefits of Scrum, or for those interested in continuing their learning with more advanced training.

- Professionals who are part of a team that currently uses Scrum, but desire a refresher so that they get the most out of their use of Scrum.
- Professionals who are joining a team that currently uses Scrum.
- Professionals that don't use Scrum directly but want to learn how to work with colleagues that do use Scrum.
- Professionals that are investigating to see if Scrum makes sense for them and their colleagues.
- Professionals that are part of an organization that intends to use Scrum in the near future.
- Teams who are learning to use Scrum together in their organizations

### PREREQUISITES

Attendees make the most of the class if they (recommended but not required):

- Have studied the Scrum Guide.

- Have a solid understanding of Scrum either through working on a Scrum Team, or through taking part in a Professional Scrum Foundations or similar course.
- Have been on or are closely involved with the product management aspects of a software product or application.
