

F179G: IBM Enterprise Records 5.1 - System Configuration

Course Code: F179G

Duration: 1 day

Instructor-led Training (ILT) | Virtual Instructor-led Training (VILT)

OVERVIEW

This course is for anyone who is planning to configure an IBM Enterprise Records system for use by records managers and users.

You work with a fully functioning IBM Enterprise Records system to practice the skills required for system configuration.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the **Self-Paced Virtual Classes and Web-Based Training Classes** on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course.

SKILLS COVERED

- Acquire the knowledge and skills necessary to configure an IBM Enterprise Records system for use by users and records managers.

WHO SHOULD ATTEND?

This intermediate course is for:

- anyone who administers an IBM Enterprise Records system
