

**KM615G: IBM InfoSphere Information Governance Catalog v11.5.0.2: Building the Catalog**

Course Code: KM615G

Duration: 1 day

Instructor-led Training (ILT) | Virtual Instructor-led Training (VILT)

**OVERVIEW**

In this course students learn how the Information Governance Catalog is used to govern information assets through the development of a governance catalog of categories and terms. This catalog documents information assets and governance policies and rules that implement the high-level strategy and objectives of a governance program.

**SKILLS COVERED**

- Please refer to course overview.

**WHO SHOULD ATTEND?**

This is a basic course for those who will be using the Information Governance Catalog to develop and implement their information governance strategy.

**PREREQUISITES**

Those taking this course should have basic knowledge of the Windows operating system. Familiarity with Information Server products is desirable but not required.
