

OnCommand Insight: Business Insight

Course Code: OCIBI

Duration: 2 days

Instructor-led Training (ILT) | Virtual Instructor-led Training (VILT)

OVERVIEW

In this course you will become familiar with some of the most important features of OnCommand Insight relevant to the day-to-day management, monitoring, and trouble-shooting of data infrastructures. This course concentrates on the reporting features of OnCommand Insight and the OnCommand Insight Data Warehouse.

This course demonstrates how to use OnCommand Insight to perform operational reporting that aid in daily administrative tasks. This course will also demonstrate how to use IBM Cognos Workspace Advanced to perform Business Reporting.

You will also learn how to create customized reports and a basic understanding of how to extend Insight to meet other business reporting needs.

SKILLS COVERED

- Describe general organizational-based reporting needs
- Use queries, widgets, and dashboards to display day-to-day operational reporting information
- Describe the OnCommand Insight data warehouse structure (DWH)
- Address business reporting requirements relating to chargeback, virtualization, and storage pool topics
- Describe where to find data warehouse reference documentation and how to maintain a healthy data warehouse

WHO SHOULD ATTEND?

- Customers
- Infrastructure Engineer
- NetApp Partners
- Sales Engineers

PRE-REQUISITES

None.

MODULES
