

EASPO: EXIN Agile Scrum Product Owner

Course Code: EASPO

Duration: 2 days

Instructor-led Training (ILT) | Virtual Instructor-led Training (VILT)

OVERVIEW

Agile Scrum Product Owner focuses on bringing value to the customer and value for the business, through Agile project management techniques. This certification is especially suitable for professionals working in the areas of project management, software development, IT service management and business management.

EXIN Agile Scrum Product Owner tests a candidate's skills and knowledge of Agile principles and Scrum practices specifically with the role of Product Owner in mind. This certification focuses on adopting Agile or Scrum in the workplace and taking on the role of Product Owner.

SKILLS COVERED

- Please refer to course overview.

WHO SHOULD ATTEND?

Although there is no mandatory requirement, ideally candidates should have at least two years professional experience working in Project Management. This course would suit candidates working in the following professions or areas:

- Project Management
